8. Read the text and answer the question.

Internet usage is increasing among people. Especially teens are fond of using the internet. They think the internet makes their lives easier. They find everything on the net. They search something and in seconds, they can find anything on the net. They also love sharing everything in their lives. Nearly all of the teens take selfies almost every day and share them. Playing online games is the most popular activity among teens. Of course, just teens don't use the internet. Adults use the internet every day, too. Sometimes to pay the bills, sometimes for banking or read the news around the world. Adults can control their time on the internet. Parents sometimes argue with their children because children don't control their internet usage time. Adults think that most of the things teens do on the internet is ridiculous.

Which of the following questions does NOT have an answer in the text?

- A) Who uses the internet most? Adults or children?  
 B) What do the adults do on the internet?  
 C) How many hours do the children spend on the net?  
 D) Why do the parents and children argue?
