İNGİLİZCE 7

Learning Outcome: E7.7.R1. Students will be able to understand short and simple texts about predictions.

1. Read Mary's predictions about the future and answer the questions.

In the future, technology will change a lot. There will be more robots and smart devices at home and work. Students will learn with digital glasses. They will visit historical places or travel in space from their classrooms. There will be hologram teachers, so they will appear in every student's house and teach lessons. Doctors will perform operations remotely with robotic arms. They will control the robots from all over the world. These changes will make life easier and better.

- What does Mary think about education?
- Does she have any opinions about health?
- Which of Mary's predictions don't you agree? Why?

Learning Outcome: E7.8.W1. Students will be able to write pieces about explanations with reasons.

2. Look at Jane's to-do list for yesterday and the map. Write at least five sentences about where Jane went yesterday to complete the tasks on her list.

Jane's to-do list

- Send a letter
- Buy flowers
- See paintings
- Watch a film
- Do exercise
- Buy medicine
- Borrow a book

The map shows a 3x3 grid of buildings. The top row contains the Library, Gym, and Movie Theatre. The middle row contains the Art Gallery, Bakery, and Florist's. The bottom row contains the Chemist's, Grocery, and Post Office. A pink arrow points from the to-do list to the map.
