1. Read the text and answer the questions below. (8x3=24P)

Hello, I'm Matilda. I'm really into extreme sports because I like taking risks. I mostly prefer water and air sports. I have tried many extreme sports such as scuba diving, caving, kayaking, skydiving and hang-gliding. I think scuba diving is much more entertaining than other extreme sports. It is fascinating to explore the underwater world and swim with the sea creatures. Skydiving is also challenging and exciting. Jumping from a high place and falling through the air makes me feel free. I dislike winter sports because I think they are dangerous. Also, to me, the best time to do sports is summer. I don't do extreme sports just for fun. They help me improve myself. Some of them require teamwork and others improve creativity.
