**1. Read the text and do the exercises.**

I'm Efe. I live with my family in a big house in a small town. There are three bedrooms, a sitting room, a kitchen, a dining room, a garden and a garage. In the sitting room, we have a soft and comfortable sofa, a TV and a coffee table. After dinner, we like getting together and chatting here. In the dining room, we have a wide table to have our meals. We have breakfast in the garden when the weather is sunny and hot. We always spare time to tidy and clean the house. My mum cooks the meals and does the laundry. My brother and I wash the dishes and my father vacuums the carpets. Now, I am doing my homework in my room, my father is washing his car in the garage, and my mother is making a cake in the kitchen. My brother dislikes staying at home, so he is in the park with his friends.

The blue whale is the largest **mammal** in the world. These blue-grey animals have a long body, a wide head, huge flippers, a powerful tail, and a small fin. It lives in oceans and it can swim very well. Blue whales eat small fish and krill. Even though they are very big, they feed on very small sea animals. They travel to warmer waters to **give birth** and take care of their babies. Blue whales usually live alone or in small groups. They can **communicate** with each other using special sounds under the water. They are very strong animals and they can stay under water for a long time. People must protect blue whales because they are **rare** today and their number is decreasing because of hunting and environmental problems. International **wildlife** organizations are taking action and people should keep the oceans clean and clean up polluted areas.
