Our school is organizing a sports event on 19 May. There are different activities, such as basketball, volleyball and running races. I am taking part in the basketball competition with my classmates. We practise after school because we want to do our best. Many students are excited about the event, and they are preparing to support their favourite teams. We are looking forward to the event and hope to have a great day together.

I'm Tom. I live with my family in a smart home. It has a system that controls everything. You can turn on the lights with your phone. That's amazing! My cousin Robert lives in a more traditional house. It has a big garden, and we sometimes have barbecues there. We have a great time together. I think his house is more comfortable and relaxing.

Hello, everyone! I'm Vera. Welcome to my travel blog!

I am in Brazil with my family. Brazil is a beautiful country in South America. Its capital is Brasília, and people speak Portuguese.

We visit Rio de Janeiro and see the famous Christ the Redeemer statue. The city has beautiful beaches and green mountains. We walk along Copacabana Beach and enjoy the sunny weather. We also try traditional Brazilian food and listen to samba music. The people are friendly, and the culture is amazing!

I love exploring new places and learning about different cultures. Brazil is a wonderful country, and I really enjoy my trip here!

See you in my next travel blog!
